5. FIRE FIGHTING MEASURES

Suitable/Unsuitable Extinguishing Media: In case of fire use: Use extinguishing media suitable for the surrounding fire. Unsuitable extinguishing media –high volume water jet as this may scatter and spread fire.

Special Protective Equipment and Precautions for Fire Fighters: Firefighters should wear self-contained breathing apparatus and protective clothing. Stay upwind and out of low areas. Avoid inhalation of combustion by-products. Stop leak if safe to do so. Use flooding amounts of water spray to cool fire exposed containers. Move containers if you can do so without personal risk.

Specific Hazards Arising from the Chemical: This material is not considered flammable. Thermal decomposition may produce but is not limited to toxic and irritating fumes of carbon, nitrogen, phosphorous and ammonia.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment: Avoid inhalation of vapors, gas, fumes. Do not touch or walk through spilled material. Do not get in eyes or skin. Cleanup personnel should wear appropriate protective clothing and equipment. Ensure adequate ventilation.

Emergency Procedures: Isolate the hazard area and deny entry to un-necessary and unprotected personnel. Ensure proper ventilation at spill site. Cleanup personnel should wear appropriate protective clothing and equipment.

Environmental Precautions: Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.

Methods & Materials for Containment and Cleaning Up: Ventilate area. Collect spilled material and place in appropriate waste disposal container with tight fitting lid.
